This is to note that we at the MCOFS, MANIPAL (institution name, surgeon's name) have used the Patient Specific Implant made out of Titanium from CTARS. We had done the procedure on the FRONTAL BONE (part of bone replaced)

We also made use of the STEREOLITH MODEL (anatomic models and cutting guides). Below are our ratings:

A. Fit of Product:

Very Good ✓	Good	Average	Poor
-------------	------	---------	------

B. Finish of Product:

Very Good ✓	Good	Average	Poor
-------------	------	---------	------

C. Work Experience with CTARS:
