

KMCT DENTAL COLLEGE

Ref.No: KMCT/DC/2017/273

23/12/17

This is to note that we the *Department of Oral and maxillofacial Surgery* at the *KMCT DENATL COLLEGE* have used the Patient Specific Implant made out of Titanium from CTARS. We had done the procedure on the mandible (body and ramus)

We also made use of the anatomic models and cutting guides.

Below are our ratings:

A. Fit of Product:

Very Good	Good ✓	Average	Poor
-----------	--------	---------	------

B. Finish of Product:

Very Good	Good ✓	Average	Poor
-----------	--------	---------	------

C. Work Experience with CTARS:

Very Good ✓	Good	Average	Poor
-------------	------	---------	------

D. Delivery of Product:

Very Good	Good ✓	Average	Poor
-----------	--------	---------	------

E. Cost of Product:

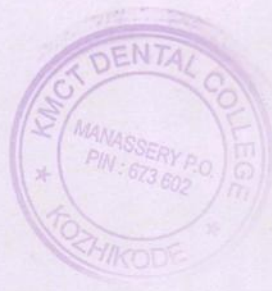

Very Good	Good ✓	Average	Poor
-----------	--------	---------	------

F. Others: *Though the fit or finish of the product is very good, there is scope for improvement in delivery time.*
